

**Milton Abbot Grouped Parish Council
Retaining Wall, Milton Abbot**

Proposals and a quotation have been received from Peter Judd, Building Surveyor, for the monitoring of the wall following a site meeting on 22nd July 2016.

It is proposed that the wall is monitored for stability for a minimum of fifteen months on a three monthly basis. Measurements would be taken by use of a plumb at set points, 10' apart, along the wall, the points being marked with studs which would be fixed to the wall by way of a high contact adhesive.

The cost of this monitoring is quoted at;

- £300 for the supply and fixing of the studs, and initial readings
- £100 per set of readings – suggested at least four sets of readings over the course of a year
